LONDON | Wednesday 13th May

Janine Garner and Gabrielle Dolan, form a dynamic duo to offer business leaders a unique training opportunity.

As global Thought Leaders in powerful networking and business storytelling, Janine and Gabrielle will guide you through a day brimming with learning, insight and actionable plans.

These One Day workshops have been specifically designed for leaders who want to improve the way they communicate. The training will improve your ability to connect, influence and drive change in the workplace.

In this workshop:

- Understand why networking is an essential skill to support personal and professional success and why your network matters more than ever
- Build a small, strategic network that works for you and a Personal Connection Plan to drive your success
- Discover the what, why and how of storytelling and why authentic leaders need to embrace it
- Increase your ability to engage and influence others using storytelling
- Learn how to construct and deliver stories you can use to communicate values and/or purpose

This is a day not to be missed for any leader wanting to improve their leadership skills.
